Experience

Agile Software Engineer • TribalScale Winter 2017 | Toronto, ON
Amazon Alexa, Ruby on Rails, NodeJS, ReactJS, SQL

- Developed an **Alexa** skill with **NodeJS** for the NBA playoffs, attracting **1000** users
- Wrote an **adapter** to transform NBA API responses to appropriate data structures
- Leveraged Amazon CloudFront **CDN** to improve Athos website load times by **20%**
- Optimized Athos website load time to under **3 seconds** with server-side rendering
- Built a resource allocations tool that handles over **100K** records with **ReactJS**
- Applied **concurrency** strategies for a **Ruby on Rails API** to prevent data corruption

Software Developer in Test • Mappedin Summer 2016 | Kitchener, ON
ReactJS, NodeJS, MongoDB, Jenkins CI, Sahi Pro

- Built features for CMS and map design application, impacting over **37M** users
- Integrated automated **error tracking** into production map kiosk software
- Architected an **automated** testing and deployment pipeline using **Jenkins CI**
- Improved testing process efficiency by automating over **200 integration tests**

Projects

ARM CPU Emulator • OCAML, ARMv4T • amandureja.com/arm-cpu-emu
Software implementation of an **ARM7TDMI processor** core that interprets the ARMv4T THUMB instruction set. Leveraged **functional programming** in OCAML.

SockServe • C++ • amandureja.com/sock-serve
A low-level, object-oriented server toolkit programmed using **TCP sockets**. Supports handling **HTTP** requests with callback functions.

Side-Scroller Game • Java • amandureja.com/side-scroller-game
A **multithreaded** side-scrolling game in which the player must collect items while avoiding obstacles. Programmed using **object-oriented design principles**.

Alexandria • NodeJS, Firebase • amandureja.com/alexandria
A **server-side** application that serves snippets from a library of over 50 000 public-domain books. Developed at **Hack the North 2016**.

Skills

Languages

- JavaScript
- CSS3
- Ruby on Rails
- Java
- C++
- C
- Python
- OCAML
- SQL

Technologies

- Git
- Amazon Alexa
- NodeJS
- ReactJS
- AWS
- CI (Jenkins, Circle)
- Firebase
- MongoDB

Education

University of Waterloo

BSE - Honours Bachelor of Software Engineering
2015 - 2020

Interests

- Hackathons
- Music
- Cooking
- Fitness
